Drive Smart Kentucky!

Speed Limit
65 mph on rural sections of Kentucky's interstates and on most parkways. Other roads as posted.

Child Restraints
Federally approved child restraint seats are required by Kentucky law for all children 40 inches tall or less.

Turning
Kentucky has a right turn on red law, unless an intersection sign states otherwise.

Driving Under the Influence
Kentucky is friendly when drivers are sober. Our strict new DUI laws include a BAC (blood/alcohol ratio) of .08 (.02 if under 21 years of age) and prohibit any open alcohol containers anywhere in the vehicle.

Seat Belts
Kentucky has a mandatory seat belt law, so please buckle up!

U-turns
U-turns are legal unless a sign states otherwise.

For current conditions of Interstates, Parkways and Major Routes, dial 511 or call

PEDESTRIANS ~ Walk with caution

- Make sure motorist can see you.
- Teach young children to wait for a **green light** or **walk signal** at a traffic light and look left, right and left again before crossing highway.
- Wear reflective or white clothing when walking at night, dusk or dawn. Carry a flashlight.
- If the "DON'T WALK" signal flashes when you are partway across the street, continue to walk in the same direction; you have time to reach the other side.
- Cross at crosswalks. Yield to traffic in a location without a crosswalk.
- Watch for vehicles turning "Right-on-Red." Make eye contact with drivers.
- When a sidewalk or shoulder is not available on a two-way roadway, walk on the left side of the roadway facing oncoming traffic.
- Remember large vehicles have "blind spots" - areas that the driver simply cannot see. Buses and trucks take longer to stop and more space to turn.
- Never walk along or attempt to cross interstate highways or parkways.

MOTORISTS ~ Drive with care

- Remember, motorist, vehicles cause severe injuries to pedestrians in crashes.
- Drive at a safe speed when approaching and crossing an intersection.
- Never try to beat a traffic light change.
- Turn "Right-on-Red", where permitted, after a full stop. Yield to pedestrians crossing in a crosswalk.
- Do not park on or block a sidewalk or crosswalk.
- Stop and yield for blind pedestrians using a white or metallic colored walking cane or a guide dog.
- Be alert for workers in a construction work zone. Obey work zone speed limits.

RULES FOR BICYCLISTS

- Bicyclists have the same rights and responsibilities as motorists.
- Wearing a bicycle helmet is strongly recommended.
- Ride a bicycle on the right side of the road in the same direction as other traffic - in the right side of your lane. Extreme caution should be used when moving out into the center of the road.
- Obey traffic signals and signs.
- Use hand signals to communicate your actions to motor vehicles.
- Yield to pedestrians in crosswalks. Give an audible warning (bell, horn, or voice) before passing pedestrians, especially on a shared use path. Never park a bicycle on a sidewalk obstructing pedestrian traffic.
- At night, a bicycle must have a white light visible from the front and a red reflector or light visible from the rear. Reflector tape may be used for added visibility. Wear light colored clothing.
- Sidewalk bicycle riding is not recommended for adult bicyclists.
- It is recommended children and novice bicyclists ride on a bicycle path or bicycle lane adjacent to the roadway, whenever one is available.
- Never use interstate and parkway systems for bicycling.

RULES FOR MOTORISTS CONCERNING BICYCLES

- Share the road with bicycles.
- Pass a bicyclist only when it is safe, giving ample room (three feet between your car and the bicyclist) and when there is no oncoming traffic.
- Look for bicyclists. Because of their narrow profile, you will need to develop your eye-scanning patterns to include bicyclists.
- When opening the door of your parked car, check behind for bicyclists.
- Remember: Bicyclists have the same rights, rules, and responsibilities as all other highway users.
